Collections and Lots

This list is updated less frequently than the listings in the “Online Ordering” section. To check to see if a lot is still available please check there.

The following is a list of collections and lots that we have available. Listed is the country, price of the collection or lot, lot number and description.

Please order giving the country name and lot number.

Lots are charged actual shipping charges (minimum \$2.50)

Terms: masterCard, VISA, money order or check with order. **Minimum order is \$15.00.** All prices are in U.S. funds. Refund on anything sold out. Washington state residents please add sales tax.

Notes:

Lots with catalogue value given are in most cases close estimates. In cataloguing we will often figure the cheapest variety and in other cases count some stamps at minimum catalogue value. The year of the catalogue used is in “()”. In most cases actual catalogue value will be higher rather than lower.

Lots with number of stamps listed are also estimates but should be quite accurate. In some cases some stamps in mounts have a second one underneath it which may have been missed, so actual counts may be higher.
