## Used Price List

# Foreign Used 50% to 75% Off Scott!

The following pages contain a listing of used stamps. Many are one of a kind. Most are priced at 50% of Scott, rounded to the nearest nickel. Some have larger discounts.

**PLEASE NOTE:** These are used stamps! They are not pristine mint stamps like we sell on our other price list. All stamps are F-VF *for their period of issue*. In the case of early stamps you should expect perforations close to the design, and the type of condition you would expect from used stamps of this era. Some stamps have one or more of the following which does not detract from the appearance of the stamp or its value: Pencil mark(s) on the back denoting catalogue number or value, hinge remnants or in a few rare cases a small piece of the envelope due to the stamp not being soaked. Stamps that are normally found CTO (Eastern Europe for example) should be considered to be CTO. Cancels are light to moderate for their period of issue. Most early stamps of some countries (Great Britain comes to mind) are RARE with light cancels. Anything with a heavy cancel for its period is not listed.

Anything you don't like may be returned for a refund. However, please take into consideration the above before ordering. If you want a nice collectible copy for your collection you should be pleased. If you're looking for a copy that rivals a mint VF stamp, then better stick to the mint list!

All prices listed are NET with all discounts already taken. Entries on list indicate catalogue number and net price. Catalogue numbers not listed in Scott are from the Scott Monthly (new issues) or Michel. An "\*" before the catalogue number means the set was not on the previous month's list. In this way you can check to see what is new.

**TERMS:** MasterCard, VISA, money order or check with order. **Minimum order \$15.00.** All prices are in U.S. funds. Satisfaction guaranteed or money is refunded. Refund on anything sold out. Because some quantities are limited, alternates are appreciated. WA residents please add sales tax.
